Art Unit: 3754

This application is in condition for allowance except for the following formal matters:

- The new statement (filed 1/23/06) under 3.73b is still incorrect. The applicant has filled the statement out using reissue application info but it needs to be filled out with the PATENT info.
- The oath/declaration is defective. It needs to state, per 37 CFR 1.63(a)(4): "that the person making the oath or declaration believes the named inventor or inventors to be the **original and first** inventor or inventors of the subject matter which is claimed and for which a reissue patent is sought" and not the "**original and sole**" inventor as the oath currently states.
- The oath is further defective because it must state (from 37 CFR 1.63) "that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be **material to patentability** as defined in § 1.56." but this oath instead refers to information **material to examination** which is not acceptable.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
